

INTRODUCING THE

# SNAC PAK

Scientific Nutrition for Advanced Conditioning

## Vitalyze - Aerobitine - ZMA

The Energy/Fat Loss/Recovery Pack

The three products contained in the SNAC PAK provide a wide range of health and performance enhancing benefits for men and women.

### Vitalyze - The Mental and Physical Performance Enhancer NEW FORMULA!

VITALYZE™ promotes energy, mental alertness, elevates mood, and enhances concentration and reaction time. Vitalyze helps the body handle stressful conditions and increases physical work capacity by improving muscular oxygen utilization. Vitalyze also helps to maintain the integrity of connective tissue, ligaments and tendons.

Ingredients: DL-Phenylalanine, L-Tyrosine, Siberian Ginseng (Eleutherococcus Senticosus), Vitamin B-6, Chromium Polynicotinate, Copper Sebacoate, Caffeine Anhydrous (90 Capsules)

### Aerobitine - The Ultimate Anti-Fatigue/Fat Loss Support Formula

AEROBITINE™ was designed to reduce fatigue and promote stamina, strength and endurance. The ingredients have been shown to decrease the buildup of lactic acid or the "fatigue acids." Aerobitine enhances aerobic performance by increasing nitric oxide levels, which improves blood flow and circulation. This increases oxygen supply and nutrient delivery to working muscles and helps to remove metabolic waste by-products. Aerobitine also helps to regulate blood sugar and effectively promotes fat loss by increasing glucose uptake by muscle cells, preventing fat cell deposition.

Ingredients: L-Citrulline Malate, L-Arginine, Folic Acid, R-Lipoic Acid, Biotin, Vitamin C, Blended Tocopherol Complex, Selenomethionine (120 capsules)

### The Original ZMA - The Anabolic Mineral Support Formula

ZMA® was the first product developed specifically to enhance recovery by improving sleep efficiency. ZMA promotes a deep and restful sleep and restores exercise tolerance which is decreased by sleep deprivation. This is an advanced formulation designed to significantly improve muscle strength and endurance as well as accelerate healing and tissue repair. As more fitness enthusiasts begin to truly understand how to maximize recovery and muscle growth, they'll join those already spreading the ZMA gospel "You Grow As You Sleep!"

Ingredients: Zinc Monomethionine / Aspartate plus Magnesium Aspartate and Vitamin B6 (90 capsules)

"The SNAC PAK was designed to enhance the performances of men and women from everyday fitness enthusiasts to world-class athletes. Many elite Olympic and professional athletes have achieved success using the SNAC PAK. I am confident that Vitalyze, Aerobitine, and ZMA will help you achieve your goals as well."

Victor Conte, world renowned sports nutritional and founder of SNAC System, Inc.
